About This Game

"In the beginning, there was only an excruciating, screaming void, wherein twisted souls writhed about, imprisoned in nothingness. Then the darkness was pierced by Luce, and with her came warmth and order. The time of men had begun, and would last many eras. But the 14th era is one of Darkness..."

As Nyx, an old, retired warrior, evade the Shadows and find your way through the crooked corridors of gloomy dungeons, navigate the treacherous pathways of the darkened overworld and fight emissaries of darkness in long-forgotten temples. Many puzzles and deadly traps stand between you and your goal – to bring your daughter Aether to the last place on the face of Earth that still sees light.

Inspired by games such as Dark Souls and ICO, Fall of Light rewards those who explore the world on their own and draw their own conclusions. Meet odd characters, search through every nook and cranny to unlock hidden secrets and learn more about the history and lore of the somber world around you. Pick your favorite combination of close-range weapons, crossbows and shields, determine your fighting stance and get ready to face hordes of crafty enemies. And above all, keep your daughter from harm, as she is the light piercing the darkness and the key to unlocking forbidden passages.

Features:

- 20 different battle stances, including two-handed and dual-wielding
- 10 weapon classes covering both short-range and long-range weaponry
- Guide and protect your companion – Aether, the Indigo child
- Fight Shadows, soldiers of darkness and underworld bosses
- Explore the overworld, scour dungeons and temples to gain and use special powers
- Uncover many secrets and solve various environmental puzzles

Akane is an extremely fun game to play with a sweet stlye and a very fitting soundtrack - It is the best arcade slasher I've ever played.

I hope there will be more to come from this series.

. The third level has a high speed section with extra intensity in the music to match. If you beat the miniboss before it too quickly the game spawns more enemies so you always sync up.

Play this game.. Bought this and game doesnt even give you the cars.... thank you for being a worthless game.. I decided to play something new and cheap. I got this game. I want to highlight the main points. The plot is quite interesting, but there are very tense moments. Also, the game weighs a little - that's a plus. When you first start, you can go deaf, so remove the headphones. With regards to the price / quality ratio is balanced. Any more serious minuses no longer found.. At the Umi-Bozu Boss level i fell in the water a million times.

This made me come here and give it a negative review for terrible level design.

Thes game just does not give me the satisfaction i get from Darksouls or Bloodborne.

I tried to play through the game twice and i just cant bring myself to hang in there.

I mean you know all the boss movement by heart and slip in the water and die ...

FFFFFFFFF that

. Content is good and thought provoking - makes a very interesting connection between technology that can be described by the mental tools of language, and the onset of a collective consciousness. However I'd add to this that this is just one (possibly minor) part of it, as some would argue that free economic markets are even more important in creating composite technologies by leveraging actual actions (instead of words) across multiple "hops" and networks of humans minds, each acting as a neuron in a collective consciousness. Could be an interesting follow-up to this.

However, I need to warn that from a technology choice perspective, certain unfortunate design decisions and ignorance of VR user experience guidelines make this a seated experience, and not a comfortable one. Well, I'm willing to bet the market will sort that out.. I'm not sure it can qualify as an RPG due to the lack of RPG elements. Also, the game is childish and lacking in depth. This becomes clear very soon into your journey, pretty much the first dialogue your character engages in is sarcastic and infintile.

The controls are horrible and the stats and character building are almost non existent. The combat is hack and slash style and the enemies you engage with tiresomely chase you like a pacman.

Even the UI experience is childlike with oversized buttons and text. The whole experience grated on me after about five minutes, after completing a dumb fetch quest and awkwardly pushing boxes into a barn - a frustrating experience.

I actually like the graphics style, and a lot of work has gone into this...but its simply just not enough to make up for the lack of everything else in every other department.

Perhaps the only way to rescue this game would be to withdraw it and rewrite it and redesign it - with a different writer and designer (maybe someone with a little less sarcasm who treats the RPG genre with a little more respect).

Refund requested.

It's a little ones click cooking game. Not bad for what it is but don't spend more than \$5 on it.. This game is a fun-filled masterpiece. Best played with friends.

It would be better if I had any. Fun as Clicker.

The negative reviews are correct in their criticisms if you are looking for a in-depth strategic experience. However, I think the game succeeds more as a Clicker game --- gain a vague sense of accomplishment while spending most of your attention on something else (such as watching TV).. This game wandered into my office a little 3pm. Wasn't expecting a soviet russian dystopian future but I went with it. I was immediately drawn in by it's beautiful yet chisled graphics. It's portrayal of a terrible future outlined in stark yet plain colors, harsh yet real.

What I didn't expect was to plumb toilets and fix motorbike wheels through. Too much for a private investigator like me.

The story drew me in, but the toilets spat me back up. STILL GOOD THOUGH!. I don't understand why this exists FeelsWeirdMan. This game is basically FINAL FANTASY's Triple Triad game. You can play it either on mobile (with FF characters and for free) or in FINAL FANTASY XIV's Gold Saucer as a mini-game. Your choice.. A fun game with an extensive craft/shop system and many interesting romances.

My first playthrough lasted 8 hours on easy sim mode and I chose Bernard as my main love interest (he's a cutie). Visual novel mode skips all the sim parts and is available from the start, perfect to get all endings or if you're in it for the story, but it does considerably shorten the game.

During the first half you focus on passing your alchemy exam and are friends with all the romanceable characters. After the time skip, the sprites change (I loved it), you are the owner of your own shop and are given a choice on who to pursue romantically.

The gameplay was pretty fun especially after you unlock the main story quest, since you need to build and upgrade multiple rooms in your shop to craft what you need. There's a lot of options to choose from: you can study, you can craft items yourself, you can buy low and sell high, you can increase your reputation and use it to increase your skills and buy stuff.

I was pretty conflicted on who to romance first since all the characters are interesting and pretty different in their interactions with Amber. It was sad to see her cut ties with some.

The choice system determines her alignment with her romantic interest, either dark or light, and it influences the ending you get. I've done most of the Light+ endings and they're fluffy and happy. The normal Light endings for some characters already feel bittersweet. If you choose to keep the gameplay, you need to craft an item for the ending to unlock. In VN mode you can effortlessly choose it.

The romance acts independently from the main story quest, so you can actually get two endings in one playthrough (oh, and Manuel's bonus mini-route is cute!).

I had fun and totally recommend it :D if you're uncertain try the demo first!. The IndyCars are so crap on this DLC compared to Grid Autosport. I love driving them but they're really slow :(. As much as I love survival games, I can't get behind this one in its current version. It's frustrating to navigate and gives no objectives or tutorial to the player.

Patch 1.22 out now!:

Patch 1.2.2 for Fall of Light has just been released.

* We improve the keyboard controls: now it's too easy playing the game with the keyboard

* Now you the Blacksmith's quest with a less amount of Fragment's of Luce:

** Normal mode -> 50

** Nightmare mode -> 80

(Of course, you still need all of 100 Fragments in order to unlock the achievement)

* Now the animation when you carry Aether is faster.. **Conglomerate 451 to Hack Into Steam Early Access with a blend of cyberpunk and classic dungeon crawling:**

Say hello to Conglomerate 451 and goodbye to the limits of your human vessel! Our brand new grid-based, dungeon crawling first-person RPG set in a cyberpunk world is coming soon in Early Access!

Watch the new announcement trailer here: <https://youtu.be/QNSd1v7E3vw>

And if you find the game interesting, don't forget to add it to your Steam WISHLIST!

. **Demo updated with final version content:**

Hi everyone,

we have updated the demo build once again! So if you haven't tried the demo yet, or if you had some issues with the game, now is the best time to try Fall of Light!

Here's a complete list of changes:

- Added localizations (EN, FR, IT, GER, SPA, RU), you can change the language through Options in Main Menu
- Improved compatibility with gamepads
- Final control scheme included
- Improved performance (especially in LOW graphics setting)
- Fixed audio SFX in intro movie
- Improved menu
- Various bug fixes. **Patch 1.23 Out Now!:**

Hi everyone,

we have just uploaded a small patch for Fall of Light, here's the changelog:

- * FIX for a random crash defeating the Guardian of the Temple of Water
 - * Improve the character speed when you're using the 2 handed weapons. **Patch 1.20 out now!:**
- Patch 1.20 for Fall of Light has just been released.

Changelog below:

- * Fixed a random crash in the Nightmare mode
- * Added particles on the objects that hide fragments of Luce as hint. **Breach detected in Steam Early Access area: new game launch initiated, completed soon:**

Hello everyone,

we just announced a release date of early access for our next project called Conglomerate 451 (we already posted about it here). Our upcoming Cyberpunk grid-based dungeon crawler with procedurally generated levels.

It is coming to early access on 23rd of May! Mark it in your calendars if you are a fan of cyberpunk and dungeon crawling :)

We also prepared a brand new trailer to showcase you bit more from the game.

<https://youtu.be/w5mMmIoyPPw>

Let us know what you think!

FALL OF LIGHT

Darkest Edition

Hi guys,

we have some exciting news for you! Fall of Light: Darkest Edition just arrived to PC!

Experience the definitive edition of Fall of Light that includes brand new dungeons, bosses, traps, enemies, weapons and many more improvements!

Patch 1.5 - Release Notes: **Temporary Rollback to the 1.19b:**

Hi folks,

we discovered a tiny bug (tiny but tricky to fix) and we decided to temporarily rollback the game to the build 1.19b.

The build 1.20 will come back online asap!

Sorry for the troubles and thank you for your patience!. **Fall of Light is coming on console!:**

After a long silence, we are really happy to share this news with you: Fall of Light is coming on console.

<https://www.youtube.com/watch?v=rtb5bSACf-U>

It will be released on PS4, XBOX1 and Switch later this summer (exact date still TBC), by Digerati

We hope our fans that have been asking us this releases will be happy too!

To celebrate this event, we published an article on Playstation Blog: <https://blog.eu.playstation.com/2018/07/12/how-ico-dark-souls-house-moves-and-financial-pressures-birtherd-upcoming-ps4-action-rpg-fall-of-light/>

Thank you so much to you all for your support!
